

Diego González Lara

Project Manager · Entrepreneurship, Innovation & Impact

Guadalajara, Mexico · +52 668 162 0334 · diegoglezlara2003@gmail.com · linkedin.com/in/diegoglezlara

Project manager on entrepreneurship and innovation programs for municipal and state governments in Jalisco. I design the evidence layer of those programs: evaluation methodologies, indicators, quality control and monitoring systems. 300+ pitch decks evaluated, with an impact-measurement background applied to early-stage incubation.

PROFESSIONAL EXPERIENCE

Redwood Capital Partners

February 2026 – present

Project Manager

- Project manager on INGENIA Play Lab, a public videogame studio incubator: 40 selected projects, 140 entrepreneurs, 80 workshop hours and 1,030 hours of 1:1 mentorship, with an NPS of +88.
- Responsible for the methodological review of every program stage, the definition of evaluation and KPIs, quality control over the mentors' work, and the operation of workshops and sessions.
- Measurement, monitoring and process-improvement support across the rest of the portfolio of government-contracted incubation and acceleration programs.
- Evaluated 300+ pitch decks and designed the multi-phase methodology used to screen, score and advance projects.
- Redesigned the mentorship documentation system using DMAIC, replacing per-session PDF capture with structured form intake across 1,600+ projected records — cutting effort from 10+ hours weekly to 30 minutes.

Garabato

May 2026 – present

Product definition

- Product definition for a work-management tool for public program cycles, built around indicator matrices and theory of change inside the core data model.
- Storyboarding, user story mapping and AI-assisted prototyping. In development; no commercial traction to date.

Student Public Policy Lab (LEPP)

June 2026 – present

Founder & advisor

- Strategic advice to the current student leadership after transitioning out of operations. The lab remains active.

Founder & general coordinator

August 2024 – June 2026

- Designed and delivered 7 training programs — 62 sessions, 187 hours — training 340 young people in public policy design, gender mainstreaming and care systems, using Design Thinking, Theory of Change and the Logical Framework.
- Co-designed and ran EMERGE, a 13-session social entrepreneurship incubator: all 13 teams completed a theory of change, a validated prototype and a business model.
- Partnerships with Dirección de Juventudes Guadalajara, El Colegio de Jalisco, Biblioteca Pública del Estado de Jalisco, Unidad para la Igualdad de la UdeG, CEIS CUCEA and CEG UdeG.

Executive Office of the Guadalajara Mayor

March – September 2025

Professional intern

- Designed the methodology to measure noise levels, noise propagation and the affected population, covering fixed and mobile sources and risk to vulnerable groups. The project reached the methodological phase and was not executed.

IMEPLAN — Guadalajara Metropolitan Planning Institute

February – September 2024

Professional intern

- Managed SIMER, the monitoring, evaluation and reporting system for the Metropolitan Climate Action Plan, across 9 municipalities, 2 state agencies and an NGO: maintained 32 indicator matrices (MIR) and ensured data quality and compliance.
- Supported the development of the metropolitan greenhouse gas inventory and produced technical datasheets.

SKILLS

Project management	Agile, Scrum, backlog & stakeholder management, PM4R, Design Thinking, Theory of Change, Logical Framework, Lean Six Sigma
